Agreement

Mobius Universe Ltd company., hereinafter referred to as The
company, on the one hand and the physical person or legal entity which is hereinafter referred to as
The client, on the other hand, have signed this contract as follows.

Terms and terminology

The company - the legal entity — **Mobius Universe Ltd,**
providing implementation of conversion arbitrage operations and carrying out all necessary
calculations, based on agreements, contracts and other documents, concluded with the Client.

The client - the physical person or legal entity concluding conversion arbitral transactions with
the Company, according to the quotations provided by the Company.

The agent - the physical person or legal entity which is acting on the basis of the present
Agreements on behalf of the Company.

Conversion arbitrage operations - transactions between the Company and the Client to
purchase or sale of the contract for currencies or the contract for indexes who assume
implementation of at least two opposite transactions on purchase and sale of the contract identical
amount.

Sub-account - the special internal account opened in the Company by the Client, on which the
recorded liabilities of the Company and the Client which arise from the transactions made within the
Agreement between the Client and the Company. The sub-account can be used as for trading, and for
receipt of an agency fee.

Base currency - monetary unit in which are nominated and calculated all balances, commission
payments and payments.

Base currancy - the transaction of purchase (sale) which isn't covered opposite sale (purchase)
of the contract.

Floating Profit/Loss - floating (unrealized) profit (loss) on open to line items in case of the
current values of quotations.

Working hours of the Company - a period during business week, in limits which the point-of-
sale terminal of the Company provides carrying out transactions with standard foreign exchange
contracts and standard contracts on indexes. The exception are holidays, temporary changes of
internal rules and procedures of the Company, and also time during which customer service is
impossible on technical conditions. In these cases the Company is obliged to take all feasible

measures, to inform the Client on change of an operating mode and to give the chance to the Client to eliminate the currency risks.

Lot (lot) - a unit of measure of an amount of transaction.

Transaction - set of trading activities in case of which means pass from a base currency in currency of the quotation and back.

Balance (balance) - the amount on the sub-account of the Client after carrying out the last during any period of time of transaction. Autoreferral (avtoreferalny system) - the system forbidden by the regulations, in case of which the client becomes at the same time an agent and/or was created on a preliminary collusion in case of which there was no real customer acquisition.

The spread is a difference between a buying rate and a selling rate of base currency in one timepoint.

Storage - a swap (storage - swap) - the means withheld or added into the sub-account The client for prolongation (transfer) of a line item next day.

Equity (Means) - secure part of a sub-account of the Client taking into account open line items, which is connected with Balance and Floating (Profit/Loss) the following formula: Balance + Profit +Swap.

It means on the sub-account of the Client reduced by the current loss on the open to line items and increased by a current profit on open line items.

The current market rate - a current rate of the conclusion of transactions on the specific contract (on currencies or on indexes) in the interbank market or at the exchange.

Margin - the necessary mortgage amount on open line items and equal to 1% (in case of credit shoulder 1:100) from total amount of opened line items.

Free Margin - a free margin, uninvolved in pledge on open line items means. Is calculated: Free Margin = Equity - Margin.

Margin Level - the indicator characterizing a state of the account. Is calculated as Equity/Margin.

Stop-out level - a condition of a sub-account in case of which open line items is forced are closed by the company according to the current quotations. The company reserves the right, in case of achievement of margin level of 15%, in order to avoid negative balance on the fast (volatile) market to liquidate part of the most unprofitable transactions. For deposits it is more than $1000 work other principle: the Margin Call/Stop-out level levels - 80%/60%

Margin Trading (margin trading) - implementation of arbitrage operations with contracts on currencies and (or) contracts on indexes, as a result of which amounts opened line items exceed several times the size of a variation margin.
